Advertising rates made known at this office.

## POST-OFFICE HOURS.

The Postoffice is open for general delivery on 8 a. m. to 6 p. m.  
Money order Department open from 8 a. m. to 6 p. m.

## MAIL ARRIVALS.

From East and West at 10 a. m., departs 3 p. m.  
Ridee mail departs 6 a. m.; arrives 6 p. m.

## A. &amp; S. E. R. E. TIME CARD.

LEAVE. ARRIVE.  
From 7:00 a. m. Fairbank, 9:30 a. m.  
From 12:00 noon. Bishop, 2:30 p. m.  
Daily, except Sunday.  
BEN WILLIAMS,  
Supt.

## LOCAL HAPPENINGS

Therometer 84 at Yonge's drug store yesterday.

Stationery, paints, oils, etc., at Monmonier's. 7-20

It is fashionable to wear full fledged coats at present.

Chipped beef, 26 cents per pound, at Sydow & Kieck's. 7

Regular monthly meeting of F. & A. M. to-night.

Large stock of fine perfumes just received at Monmonier's.

Wonder if we are to have that game of base ball on Thanksgiving Day?

Just received, a fresh lot of cranberry sauce, at Sydow & Kieck's. 7

The diet Attorney Stilwell returned yesterday.

The very finest coffee at the Maison Dore restaurant.

Frank Earle will return to Turquoise district in a few days.

Pictures, picture frames, mouldings and artists' materials at Monmonier's.

Boston baked beans and liquid refreshments at the Fashion to-night.

The funeral of Mrs. Kate Delaney yesterday afternoon was largely attended.

Monmonier has some wire and lace masks, just the thing for the coming skating carnival.

Harris, the tailor, has received a large stock of fall and winter goods of the latest patterns.

Don't forget the soiree to-night at Mining Exchange Hall, under the management of J. W. Shepperd.

Nesbit's poultry powder and Forrest cholera cure for chickens. For sale at Wolcott's.

Phoenix has been selected for the next meeting of the Masonic Grand Lodge.

Hon. Geo. W. Cheyney and wife, Chas. Warner, A. Cohn, Ed. Hotopp and others returned from Tucson yesterday.

Seaton & Valters are the authorized agents for Louisiana lottery tickets in this city. By investing \$1 you have a chance of winning a fortune.

It is expected that the majority of the Tombstone delegation will return from Tucson to-day so as to prepare to attend church to-morrow.

J. M. Lang, an old-timer of this city but now of Los Angeles, arrived yesterday and was warmly greeted by his many friends.

It is reported that ore has been struck in one of the prominent mines of this district that has to be cut out with a cold chisel. We are not at liberty to say anything further at present.

## MINES AND MINING.

The outlook for the past week has been encouraging. Several good bodies of ore have been uncovered owing to the stimulating effect of the rise in silver. Nearly every one who owns a claim is either working it or is making preparations to do so. It is confidently expected that silver will touch \$1 by the first of next month and after that the advancement will be easy.

No change to report in the Emerald. The Big Comet is developing into a mine the extent of which can only be surmised. The force of men has been nearly doubled and work is progressing. A shaft has been started several hundred feet south of the present workings and has opened up another large body of ore, the extent of which can only be discovered by development work. The ore throughout this mine is low grade, but we are informed that the present price of silver enables shipments to be made at a profit. There seems to be no doubt that this mine will prove a bonanza to the owners. Two car loads were shipped yesterday.

Shipments of manganese ore continue from the Stonewall.

The Rattling Boy is looking well in the upraise from the lower level.

The Tombstone M. & M. Co. has nothing new to report this week. The mines look well and the usual amount of ore is being hoisted.

Work is being continued on the Luck Sure by the lessees, and the showing is better than usual.

The Wedge is producing good ore and has opened up pretty big. It is worked by lessees.

The Independence is being worked systematically and energetically by the new owners and will be thoroughly prospected. New buildings are being erected and everything necessary to well-conducted mining operations is being done.

The Old Guard remains idle, only two watchmen being employed.

The Nicholas remains inactive.

Some very rich rock has been struck in the north drift of the lower level of the Herschel and the indications for a large body are very favorable.

At the Ground Hog a drift has been started from the 150 level to tap a small streak of rich ore that was recently found on the surface.

Most of the claims in Clarksburg, this district, are being worked by lessees and some of them are producing sufficient ore to pay a good margin above all expense.

The Vizina, which produced so much rich ore in early days, is looking well again and bids fair to produce another bonanza for its owners under the management of superintendent Fisher. The ore from this mine supplies the Sterling Silver mill at present.

The Sterling Silver Mill is running steadily on Vizina ore, and the results are very satisfactory to the owners. It is expected that the drift for water will be finished by next Friday and that an abundance of water will be struck. There is only about sixteen feet more to run and two shifts are being worked. The usual shipment of fine bullion occurred during the week.

A small amount of work is being done in the Dragoons on some copper properties owned in this city. If this metal advances in the same ratio as silver, extensive work will be done on these claims.

From a gentleman just in from Turquoise we learn that this district is looking more favorable as work progresses. The Defiance is producing its usual shipments and the grade has slightly increased. The Silver Bill is

working two shifts at present and shipping to El Paso. Sinking, drifting and crosscutting is being done and so far the extent of the ore body has not been determined. The ore is low grade, but such enormous quantities make large profits.

It is a fact that Southeastern Arizona has not been half prospected and that the claims found have not, as a rule, been half developed, mostly owing to the low price of silver. It is possible, and also very probable, that if silver continues to advance, one of the most extensive mining districts on the coast will be uncovered in this portion of Arizona.

## CONCENTRATES.

In Montana seven companies have paid over \$2,500,000 in dividends for the year 1889 up to October 1st.

The Newmont deposits of Grant county, New Mexico, are estimated to contain 100,000,000 lbs. of silver and 100,000,000 lbs. of gold.

The Colorado (Globe) in 1888 was estimated to contain 100,000,000 lbs. of silver and 100,000,000 lbs. of gold.

The Colorado (Globe) in 1888 was estimated to contain 100,000,000 lbs. of silver and 100,000,000 lbs. of gold.

The Colorado (Globe) in 1888 was estimated to contain 100,000,000 lbs. of silver and 100,000,000 lbs. of gold.

Montana has standing to her credit a bullion product of \$270,000,000, made up in the following proportions: Gold, \$154,000,000; silver, \$64,000,000; copper, \$47,000,000; lead, \$5,000,000.

It is estimated that California is capable of a bullion output of \$30,000,000 per year, which figure, it is claimed, will be reached when the hydraulic mines are allowed to operate again, as they no doubt will be very soon.

Wyoming properly lists the list of the bullion producing States and Territories, its entire yield of precious metals amounting to less than \$1,000,000. Its mineral resources are, nevertheless, very considerable, gold and silver being among them.

Utah has been a steady producer of gold, silver, lead and copper for nearly a quarter of a century, and has, during this time, turned out these metals to a value of \$100,000,000—73 per cent silver, 18 per cent lead, 7 per cent gold and 2 per cent copper.

The continuous purchase of silver by the British mint is attracting comment in London. It is said by some that a considerable issue of the larger denominations of silver coins is to be made to replace the light weight half sovereigns, which it is intended shortly to withdraw from circulation.

In the laboratory of the State Mining Bureau in San Francisco a discovery was made recently which is highly prized. In working a specimen of sulphur ore from a mine in Nevada, a small piece of native gold was secured. This is the first piece of native gold secured in this country. Large works on metallurgy and the existence in the mines of Nevada, Arizona, of the only native mercury known.

## CARD OF THANKS.

To all the kind friends who tendered their sympathy and aid in my bereavement my family and myself desire to tender our heartfelt thanks.

CORNELIUS DELANEY.

Fresh oysters at the Can Can very day.

## OUR ARTIST.

Thomas Delaney will enlarge photographs, do sketches and sign painting at reasonable rates. Leave orders at the DAILY EPIGRAPH office.

## CITY COUNCIL.

Regular meeting of the Common Council of the City of Tombstone, held November 15, 1889.

Present—Darward, Campbell and Prindville. Absent—Mayor Thomas and Lippert.

Minutes read and approved.

The following bills were read and referred to the finance committee:

Cochise H. & T. Co. \$4 40  
S. Hills 8 25  
Tombstone Gas Co. 31 00

The rules were suspended and the bill of R. Fish, for \$2, was allowed.

The following bills were allowed and warrants ordered drawn on the contingent fund:

R. Fish \$6 00  
C. H. Arnold 3 00  
C. H. Arnold 1 00  
Joe Brown 2 50  
Sydow & Kieck 1 00

Adjourned.

NAT HAWKE,  
Clerk.

Commissioner of Indian Affairs Morgan, in his annual report says the Indian will have to be made a citizen, tribal relation abolished and each individual red man made to understand that he has to work for his own living like his white, black and yellow brethren. Yes, we have heard something about this once before. There are tribes of Indians who have always been self supporting and peaceable and there are others whom, it seems, never will be—the Apaches for instance.—Prescott Courier.

Some prospectors are sinking a shaft near the eastern terminus of Fremont street, hoping to strike the continuation of the Grand Central ledge. Should they do so they will undoubtedly strike it rich. It is the belief of many that this ledge extends across the mesa to the Dragoons and many thousands of dollars have been expended to discover it, although so far without success. Strong indications have been discovered near the lime kiln, about half a mile from the city.

Joe Nolte, a German, died at 2:30 this afternoon in Heacock's Capitol corral from the effects of strychnine. He borrowed Heacock's pencil, retired and wrote a German direction, which he gave to Heacock, saying it was his father's address. He then laid down on a manure pile and was seized with spasms, which continued frequently till death. He refused to have a doctor till it was decided he must. He died in a stall, his feet twitching in the offal. It was a sorry spectacle.—Phoenix Herald.

## Dumplings with Royal Baking Powder

No dessert is more delicious, wholesome and appetizing than a well-made dumpling, and with the fruit of the season. By the use of the Royal Baking Powder the crust is always rendered light, flaky, tender and digestible. Dumplings made with it, baked or boiled, will be dainty and wholesome, and may be eaten steaming hot with perfect impunity.

Recipe.—One quart of flour; thoroughly mix with four teaspoons of Royal Baking Powder and a small amount of salt; rub in a piece of butter or lard the size of an egg, and then add one large potato, grated in a fine sieve; mix well, add one cup of milk and mix to the consistency of soft biscuit dough; break off pieces of dough large enough to close over four quarters of an apple (or other fruit as desired) without rolling, and lay in an earthen dish for steaming, and when the fruit is tender. Bake if preferred.

For all receipts calling for cream of tartar or soda, substitute Royal Baking Powder. It never fails, makes more appetizing and wholesome food and is more economical. Royal Baking Powder is especially adapted for use in the preparation of the finest and most delicate cookery.

Latest periodicals at Monmonier's.  
Fresh buttermilk at the Can Can.

## Attention, Windmill Men!

Parties desiring to purchase windmills will do well to investigate the merits of the Aeromotor, which is the latest improved, showing an increase of power of 35 per cent. A 12-foot wheel is guaranteed to do as much work as any 16-foot wooden wheel in the market. In all respects it represents the latest improvements of inventive skill. For further information and circulars address: HOFF, OF Tucson, Box 120, Tucson, Arizona. 9 26tf

## A Hale Old Man

A hale old man, Mr. Jas. Wilson of Allens Springs, Ill., who is over sixty years of age, says: "I have in my life tried a great many medicines, some of excellent quality, but never before did I find any that would so completely do all the business as Chamberlain's Colic, Cholera and Diarrhea Remedy. I truly a wonderful medicine." For sale by H. J. Peto.

## Summons.

In the Justice Court of Precinct No. One, county of Cochise, Territory of Arizona. Before John C. Easton, a Justice of the Peace.

Otto Metckhe, plaintiff, vs. H. B. Maxson, defendant. Action for debt; complaint filed in my office and summons issued.

The Territory of Arizona sends greeting: To H. B. Maxson, defendant—You are hereby summoned and required to appear at my office, in Precinct No. One, county of Cochise, Territory of Arizona, to answer the complaint of plaintiff, now on file in my office, within five days, should this summons be served upon you in this precinct; if served upon you without this precinct, but within this county, ten days; otherwise within twenty days (exclusive of the day of service) from the day this summons is served upon you.

This action is brought to recover a judgment against you for the sum of \$74.23 for work and services performed for you at your request, as alleged in plaintiff's complaint now on file in my office, to which you are referred for further particulars, and costs of suit; and you are hereby notified that should you fail to appear and answer within the time stated in this summons, the plaintiff will apply to the court for a judgment against you for said demand and all costs.

Given under my hand at my office in said precinct this 28th day of October, 1889.  
JOHN C. EASTON,  
Justice of the Peace.

## Constable's Sale.

By virtue of an execution issued out of Justice John C. Easton's Court, of Precinct No. 1, county of Cochise, Territory of Arizona, dated the 22nd day of October, 1889, in a certain action wherein Amelia Tuquet, as plaintiff, recovered judgment against Frank Frary, defendant, for One Hundred and Eight dollars, debt, and Fourteen and 41-100 dollars, costs of suit, on the 21st day of October, 1889, I have levied upon the following described property, to-wit: First, on a certain mining location or claim in the Tombstone Mining district known as the Blue Mineral mine situated about two miles south of Tombstone; second, on eleven sacks of ore at the mine; third, on said Frank Frary's interest in the partnership or association known as the Undertakers Association of the city of Tombstone.

Notice is hereby given that on Wednesday, the 13th day of November, 1889, at 12 o'clock M., at that day in front of the Court House in the city of Tombstone, county of Cochise, I will sell all the right title and interest of Frank Frary in and to the above described property, at public auction, for cash in hand, to the highest and best bidder, to satisfy said execution and all costs.

Dated at Tombstone the 22nd day of October, 1889.  
S. T. CARR, Constable.

## Constable's Sale

By virtue of an execution issued out of Justice John C. Easton's Court of No. 1 Precinct, county of Cochise, Territory of Arizona, dated the 22nd day of October, 1889, in a certain action wherein Amelia Tuquet, as plaintiff, recovered judgment against Thomas Frary, defendant, for Ninety-nine Dollars, debt, and Fourteen and 41-100 dollars, costs of suit, on the 21st day of October, 1889, I have levied upon the following described property, to-wit: First, on a certain mining location or claim in the Tombstone Mining district known as Blue Mineral mine, situated about two miles south of Tombstone; second, on eleven sacks of ore at the mine; third, on said Thomas Frary's interest in the partnership or association known as the Undertakers Association of the City of Tombstone.
